

Sigurður Bjarmi Halldórsson

Reykjavík, Iceland • +354 6989274 • bjarmi2001@gmail.com • bjarmi.dev • [LinkedIn](#) • [Github](#)

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, CSS, HTML, Dart, Python, C++, C#, SQL

Frameworks & Libraries: Vue.js, Next.js, React, Flutter, FastAPI, Django, Firebase

Tools & Technologies: Git, Docker, Firebase, REST APIs, Serverless Architecture

Other: Agile development, code reviews, cross-platform mobile/web development

EXPERIENCE

Software Specialist, Beanfee (2024)

- **Took ownership** of a brand-new Flutter application, moving from small initial assignments to leading the development of a product that encouraged positive behavior in classrooms.
- **Oversaw** the app's lifecycle from user-story definition and rough design to near-complete release, ensuring high standards for readability, scalability, and maintainability in the codebase.
- **Used Git-based workflows** and regular code reviews to maintain quality and support collaboration among both junior and senior colleagues.
- **Collaborated cross-functionally** with product owners, designers, and backend teams to deliver user-centric features on aggressive timelines.

Intern, Stokkur (2024)

- **Developed Flutter-based mobile app** as part of an intern team, focusing on polished UI/UX and efficient Dart code.
- **Contributed to agile development** processes with sprint planning, and hands-on code reviews, significantly improving app quality and release speed.
- **Implemented feedback loops** that streamlined user testing, debugged issues swiftly, and elevated overall app performance and stability.
- **Demonstrated initiative** by suggesting architectural optimizations and additional user-facing features, showing a strong drive to exceed project expectations.

Caregiver, Mörk Nursing Home (2022–2024)

- Strengthened communication, teamwork, and attention to detail in a high-responsibility environment

IT Assistant, Martak (2021)

- Troubleshoot technical issues and supported staff during the holiday season
 - Enhanced problem-solving and technical communication skills
-

EDUCATION

B.Sc. in Computer Science, Reykjavik University (2021–2025)

- Relevant Coursework: Software Development, Data Structures & Algorithms, Database Systems
- Final Project: Developed a full-stack solution for a startup (Showdeck) using Vue.js, Django, and Docker.

High School Diploma in Natural Sciences, Kvennaskólinn í Reykjavík (2017–2020)

PROJECT HIGHLIGHTS

Showdeck Chat (Reykjavik University Final Project)

- **Led the front-end team** (Vue.js + TypeScript) in a five-person group split between front-end and back-end, coordinating architecture decisions and feature development.
- **Built core functionalities** such as real-time chat components, performance optimizations, and intuitive UI elements that significantly improved user experience and engagement.
- **Integrated Docker for deployment** in collaboration with the back-end team (Django), ensuring a stable, scalable environment with minimal downtime.
- **Demonstrated full-stack adaptability** by diving into serverless architecture concepts and bridging communication between front-end and back-end, culminating in a polished, production-ready system.

(For more details and additional projects, please visit bjarmi.dev/work.)

ADDITIONAL INFORMATION

- **Languages:** Icelandic (Native), English (Fluent), Swedish (Fluent)
 - **Interest:** Football, the gym, golf, general health and I'm really passionate about creating new projects and learn new technologies
 - **Attributes:** Detail-oriented, proactive learner, strong collaborator, adaptable in fast-paced environments
-
